

MUTHUPANDI M

JAVA DEVELOPER

CAREER OBJECTIVE

To leverage my skills and creativity in a dynamic and challenging environment, actively contributing to the organization's goals while continuously expanding my knowledge and expertise, ultimately becoming a valuable asset to the team.

SKILLS

JAVA:

- I have a good knowledge of the OOPS concept.
- I know the collection Framework.
- I am very good at exception handling.

SQL:

- Good knowledge of writing SQL Queries.
- Excellent knowledge of DML, DDL, and TCL.
- I know Joins and sub-queries.

WEB-TECH:

- HTML-5
- CSS-3
- JavaScript
- React JS

J2EE:

- JDBC, SERVLETS, Hibernate with JPA, Spring, Spring Boot.

CREATING A STATIC YOUTUBE-LIKE NAVIGATION BAR

- The aim of this project is to design and develop a custom YouTube-like navigation bar that emulates the visual and functional aspects of YouTube's interface.
- Creating a modern, user-friendly navigation bar with a familiar layout that enhances the user experience.
- This project serves as an effective exercise in front-end web development, reinforcing concepts such as layout design, responsive styling, and user interface components.

QR CODE GENERATOR

- This project aims to create a web-based QR code generator that allows users to input a value and generate a corresponding QR code.
- The generated QR code is displayed within the webpage, updating dynamically as the user inputs new values.
- The project highlights the importance of combining front-end technologies to create functional and visually appealing web applications.
